

# Description

The LKP-155 is a high accuracy, "closed-loop" Hall effect system designed to accurately and reliably measure unidirectional dc bus currents up to 155 k amperes. This "system" consists of a two-piece measuring head, which installs around the bus, an electronics unit and four multiconductor cables connecting the two. This model supersedes the following LEM and "Halmar" models : LKC155 and CM7078S.

# **Application**

The LKP-155 is particularly well suited to measure individual as well as total bus currents in Electro-chemical processes including aluminum, chlorine, copper, manganese, titanium, zinc as well as electroplating and coating processes.

# **High Current Metering System**

# **Specifications**

Input	

Full Scale (FS) bus current 155 kA Based on approved DynAmp Bus Analysis

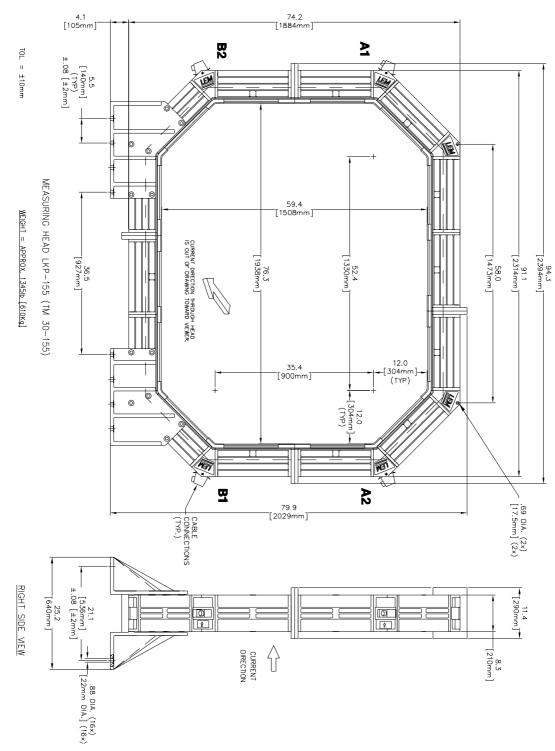

Output
Voltag

Out		
	Voltage scaling	1mV per bus kA
	Voltage full scale	155 mV
	Voltage accuracy	± 0.1% of FS **
	Current scaling 200 mA p Current full scale	per bus kA 31 A
	Current loop max burden	15 V
	Current accuracy	± 0.1% of FS **
	Repeatability	± 0.02% of FS
	ropouluomy	plus core set
	Linearity (5100% of FS)	± 0.03% of FS
	Temperature sensitivity	± 0.002% of FS per °C
Mai		
	Available Input Ranges	100V: 85 to 110V RMS
		120V: 102 to 132V RMS
		200V: 170 to 220V RMS 220V: 187 to 242V RMS
		240V: 204 to 264V RMS
	Frequency	50Hz.: 45 to 55 Hz.
	roquonoy	60Hz.: 55 to 65 Hz.
	Power requirements	20 VA / bus kA typical
	Impact of mains variation	100, 120, and 200V:
	on accuracy	± 0.001% FS / V RMS
		220, 240V:
		± 0.0005% FS / VRMS
Isol	lation	
1301		or 1 minute with
		25 mm air gap
	Mains supply to output	1.5 kVac for 1 minute
	Mains supply to chassis	1.5 kVac for 1 minute
	Output to chassis	1.5 kVac for 1 minute
	Bus to head structure	6 kVac for 1 minute with
		25 mm air gap

# Measuring Head Outline and Mounting Diagram and Information

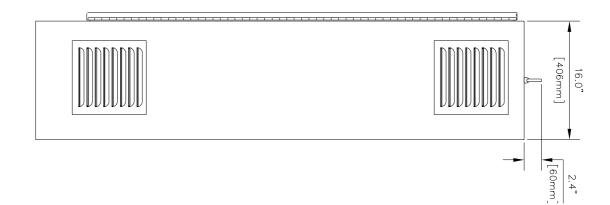

# Metering Unit Outline and Mounting Diagram and Information

# **LKP-155**

# Ordering Information

- 1. Specify model LKP-155, item number 42112.
- 2. Specify item number and description of options and or accessories.
- 3. Complete System Worksheet BEN068 and worksheets for options and accessories as required.

# Standard System Includes

Split apart measuring head 10 meter / 33 feet head to meter connecting cables Metering Electronics Mounting Feet Operator / installation manual Calibration result data tables and graphs One internally mounted shunt Meter enclosure is to standard IP-22 4 hours operation before final test/calibration 2 year warranty

DynAmp bus analysis of installation location (subject to availability of customer drawings) Weather resistant shipping crate

# **Options**

# Accuracy Diagnostics:

Provides an SPDT relay output if a channel amplifier or power supply voltage is out of normal range. Detects errors due to excessive or reversed magnetic fields and failures in electrical components such as amplifiers, fuses, or sensors.

Specify Item Number: 41767

## Second Internal Shunt:

Standard system includes one internally mounted shunt. A second internal shunt is available to provide an additional scaled and calibrated millivolt output.

Requires completed Shunt Worksheet BEN055. *Specify Item Number: 28698* 

## Local Digital Display:

Mounted on the surface of the enclosure to provide local display of bus current. Requires completed DPM Worksheet BEN056.

Specify Item Number: 41910

# Current & Voltage Output (Internal Isolator):

CE compliant Model SI2284 provides isolated voltage and 0-20mA or 4-20mA output proportional to current. Refer to SI2284 data sheet for detailed specifications. Requires completed Isolator Worksheet BEN061. **Specify Item Number: 42315** 

# Compliance With CE Requirements:

A CE certified version is available including all required components, tags, certifications and documentation. CE compliance may not extend to all options and accessories. Consult factory for determination. **Specify Item Number: 41540** 

# Accessories

## Remote Digital Display:

Additional digital panel meters are available for remote indication of the bus current. Requires completed DPM Worksheet BEN056. **Specify Item Number: 41910** 

#### Extended Burn-In:

Standard systems are operated for 4 hours before final tests and calibration. Extended burn-in periods can be ordered in 24-hour increments. **Specify item number: 99921** 

Specify nem number: 99921

## Standard Spare Part Package:

Allows swap of major assemblies as well as single components to ensure fast return to operation. *Specify Item Number:* **43792** 

#### Spare System Components:

Measuring Head - Specify Item Number: 41728 Metering Unit - Specify Item Number: 41427

## External Shunt:

Converts system feedback current to low voltage. Refer to Shunt data sheet for detailed specifications. Requires completed Shunt Worksheet BEN055. **Contact DynAmp** 

#### **Totalizing Shunt:**

Totalizes the output of multiple systems. A special assembly is available to properly interconnect many units. Refer to Shunt data sheet for detailed specifications. Requires completed Shunt Worksheet BEN055. **Contact DynAmp** 

## Custom Head To Meter Unit Cable Length:

Standard systems are supplied with 10 m (33 ft.) of interconnecting cable. Cable lengths of up to 50 m (165 ft.) can be readily provided. Consult factory for lengths greater than 50 m (165 ft.). Specify additional length required in meters.

Specify Item Number: 41450

## Current & Voltage Output (External Isolator):

CE compliant Model SI2284 provides isolated voltage and 0-20mA or 4-20mA output proportional to current. Refer to SI2284 data sheet for detailed specifications. Requires completed Isolator Worksheet BEN061. **Specify Item Number: 42315** 

# Suggested Support Services

#### On-Site Commissioning:

Factory trained technicians and specialized equipment onsite during start-up. **Contact DynAmp** 

## Annual / Biannual Calibration:

Experienced field service technicians and specially calibrated equipment are available to verify proper operation and calibrate your system to internationally traceable standards, ensuring the most reliable data for decision making and cross plant comparisons.
